## F. Dubecký:

Charge collection efficiency of Pt vs. Mg contacts on semi-insulating GaAs

*Applied Surface Science*

## Z. Zápražný:

Characterization of the chips generated by the nanomachining of germanium for X-ray crystal optics

*International Journal of Advanced Manufacturing Technology*

## M. Kučera:

Structural, electrical, and optical properties of annealed InN films grown on sapphire and silicon substrates

*Thin Solid Films*

## P. Kováč:

Strong no-barrier SS sheathed MgB<sub>2</sub> composite wire

*Physica C*

## M. Sojková:

Carbide-free one-zone sulfurization method grows thin MoS<sub>2</sub> layers on polycrystalline CVD diamond

*Scientific Reports*
